Sizzle this summer with the new fashion colours from redken

- Brunettes go for rich chocolate, for extra vibrancy, infuse with red, copper or violet tones. Great with curly or straight hair.
- Blondes. For straight hair, cool clean neutral tones, lots of highlights finely woven for a bright yet feminine look (pic)
- For girls with curls, warm up your blonde tones with gold and strawberry slices.

Trends for summer... get the look

- 1950's ponytail (straighten hair first then wrap a section of hair around the band)
- The catwalk updo
- Cool Cuts
- The Bob, must be graduated as much movement and energy as you can live with.
- Long hair, short internal layers blending into long soft straight fringes
- Crops, think "Sharon Stone" blonde or chocolate, directional tousled and shiny.

Care for your colour this summer

Redken Colour Extend and Blonde Glam have UV sunscreen added to combat sun fade.
